

Please leave NJ law intact. I have seen unwanted calls go from 10 per day to 1-2 per week. As a mother of two children I need all the time I can get. I do not wish my phone to be sold to telemarketers. If I want something I will research it on the web. Before the law I would get 5 calls per week from the same merchant. With the start of enforcement of the NJ law my phone and life are peaceful. I also have a dinner time that belongs to my family not a ringing phone.
